

Widest Variety of Bins, Totes & Containers available on-line!

ConductiveBinBoxes.com

Protecting your electronic components!

Conductive Shelf Bins ... 12", 18" & 24" DEPTHS!

Protect your electronic components from typical electromagnetic interference (EMI), electrostatic or induced fields with these conductive polypropylene bins. The conductive material provides a barrier, which these fields cannot penetrate and prevents the build up of electrostatic charge.

These bins are permanently conductive and are unaffected by washing with normal cleaners. Molded from a carbon filled copolymer polypropylene material with an electrostatic decay rate at less than 0.1 second that meets military specification Mil-B-81075B. Its surface resistivity is less than 10 Ohms-per square. Easy access to stored items with hopper front bin and label holder provides fast identification. Conductive bins have reinforced side walls and the wide ledge allows high stacking on benches or shelving. Be sure all units are properly grounded according to your use. Color is black.

Conductive Shelf Bins are available in all sizes on-line at **QuantumBins.com**

MODEL NO.	OUTSIDE DIMENSIONS L" x W" x H"	CTN		DIVIDER	CTN
